We emphasize to all students that they are making a commitment to Zoo Boise and it requires your support for them to fulfill their commitment. Please encourage your teen to take the application and interview seriously as it will assist Zoo Boise in selecting applicants.

As a part of teaching professional development skills, we also ask you to encourage your teen to complete application materials and

communicate with Zoo Boise staff with minimal input from you.

Teen Testimonials

"The most enjoyable aspect was simply learning about animals and being surrounded by people who have the same passion for nature and wildlife as I do!"

"It's really helped me grow and become more comfortable interacting with people I'm not familiar with. In that respect, it's also been a huge confidence boost."

"I most enjoyed positive interactions with people my age. It was a great way to work on my lackluster social skills and bond with people who shared my similar interests."

"I can't begin to describe the positive impact this program has had on my life."

"I think the ZooTeen program has a huge impact on how I view the wild and conservation. I know now that, even as a kid, my voice can make a difference."

"The ZooTeen Program has taught me both people skills and job skills, and now I can be prepared for future jobs. I have gotten to meet so many awesome people! I also love animals and get to work at a place that is full of them! Thank you so much for creating this program!"

"The Zoo Teen Program has a big role at the zoo. It contributes by bringing attention to conservation to visitors and teaching them about animals all over the world. I helped with animal encounters and talking about conservation at every station that I did."

"I feel like this opportunity has made me better at speaking to people I don't know, and because of this I feel significantly more confident when I meet strangers. Before this, I also had little experience being in a leadership role, and being a returning teen I really have had to start to develop those skills in mentoring and teaching others."

"This year I gained a lot not just as a volunteer but as a person by being involved in the ZooTeen program, it's difficult to explain but helping out with special events and especially camps were all very emotionally uplifting experiences that will stick with me for a long time."

"I have really loved being a ZooTeen this year. It has helped me be more confident talking to people. Parent comment- The ZooTeen program has been a great experience for my daughter. The program is very well [run] and easy to help my daughter schedule shifts. Thank you so much for giving her this opportunity and making it so positive!"
