# ZOOBOISE OUTREACH

**Bring the zoo to you!**

[ZOOBOISE.ORG/EDUCATION](http://ZOOBOISE.ORG/EDUCATION)

”

Zoo educators have access to unique resources like furs/skins, skulls, feathers, eggs, x-rays, and most importantly, the scientific info that comes with them!

Other teaching tools...

Trail Cam, GPS Telemetry, X-rays...

You want fake poop, we have that too!

Please note, zoo animals cannot leave zoo grounds.

Our expert zoo educators will bring a wild experience to your classroom, focused on wildlife conservation.

Are you teaching conservation, adaptations, biomes, food webs, life cycles, etc.? We can tailor to your content – just ask!

Thank you for coming to my school, to talk about the animals. I loved how you talked about the camera thing that detected animals and it took pictures about them. My favorite animal you talked about when you were here was the Lion's. They look and are super cool! But for sure One of my favorite things was when you guys put out the Lion and heyaana skin thing on the desks and All the skulls. They were so cool!! Thank you for coming to Star Middle School.

CONSERVATION X EDUCATION X RECREATION
