ZOOBOISE

Conservation • Education • Recreation

STEM NIGHTS

Bring something wild to your school's STEM night!

WHAT DOES THE ZOO BRING?

*Conservation.
Education.
Recreation.*

Our expert zoo educators will bring a wild experience to your school's STEM night program, focused on wildlife conservation.

Zoo educators have access to unique resources like furs/skins, skulls, feathers, eggs, x-rays, and most importantly, the scientific info that comes with them!

We can also bring crafts and activities based on zoo science!

TOPICS

WILD JOBS

What jobs are there at a zoo?
We aren't all zookeepers.
What are some tools of the trade?

FUR, FEATHERS, AND SCALES

How do animals adapt to their environments? Focus on biofacts and animal artifacts to find out!

CITIZEN SCIENCE

Even kids can participate in real wildlife research!
Scan the QR for a great example, the WildCam in Gorongosa National Park.

AND OTHERS, TOO!

If you have ideas for specific topics that we can cover, let us know!
